better care - better balance - better life

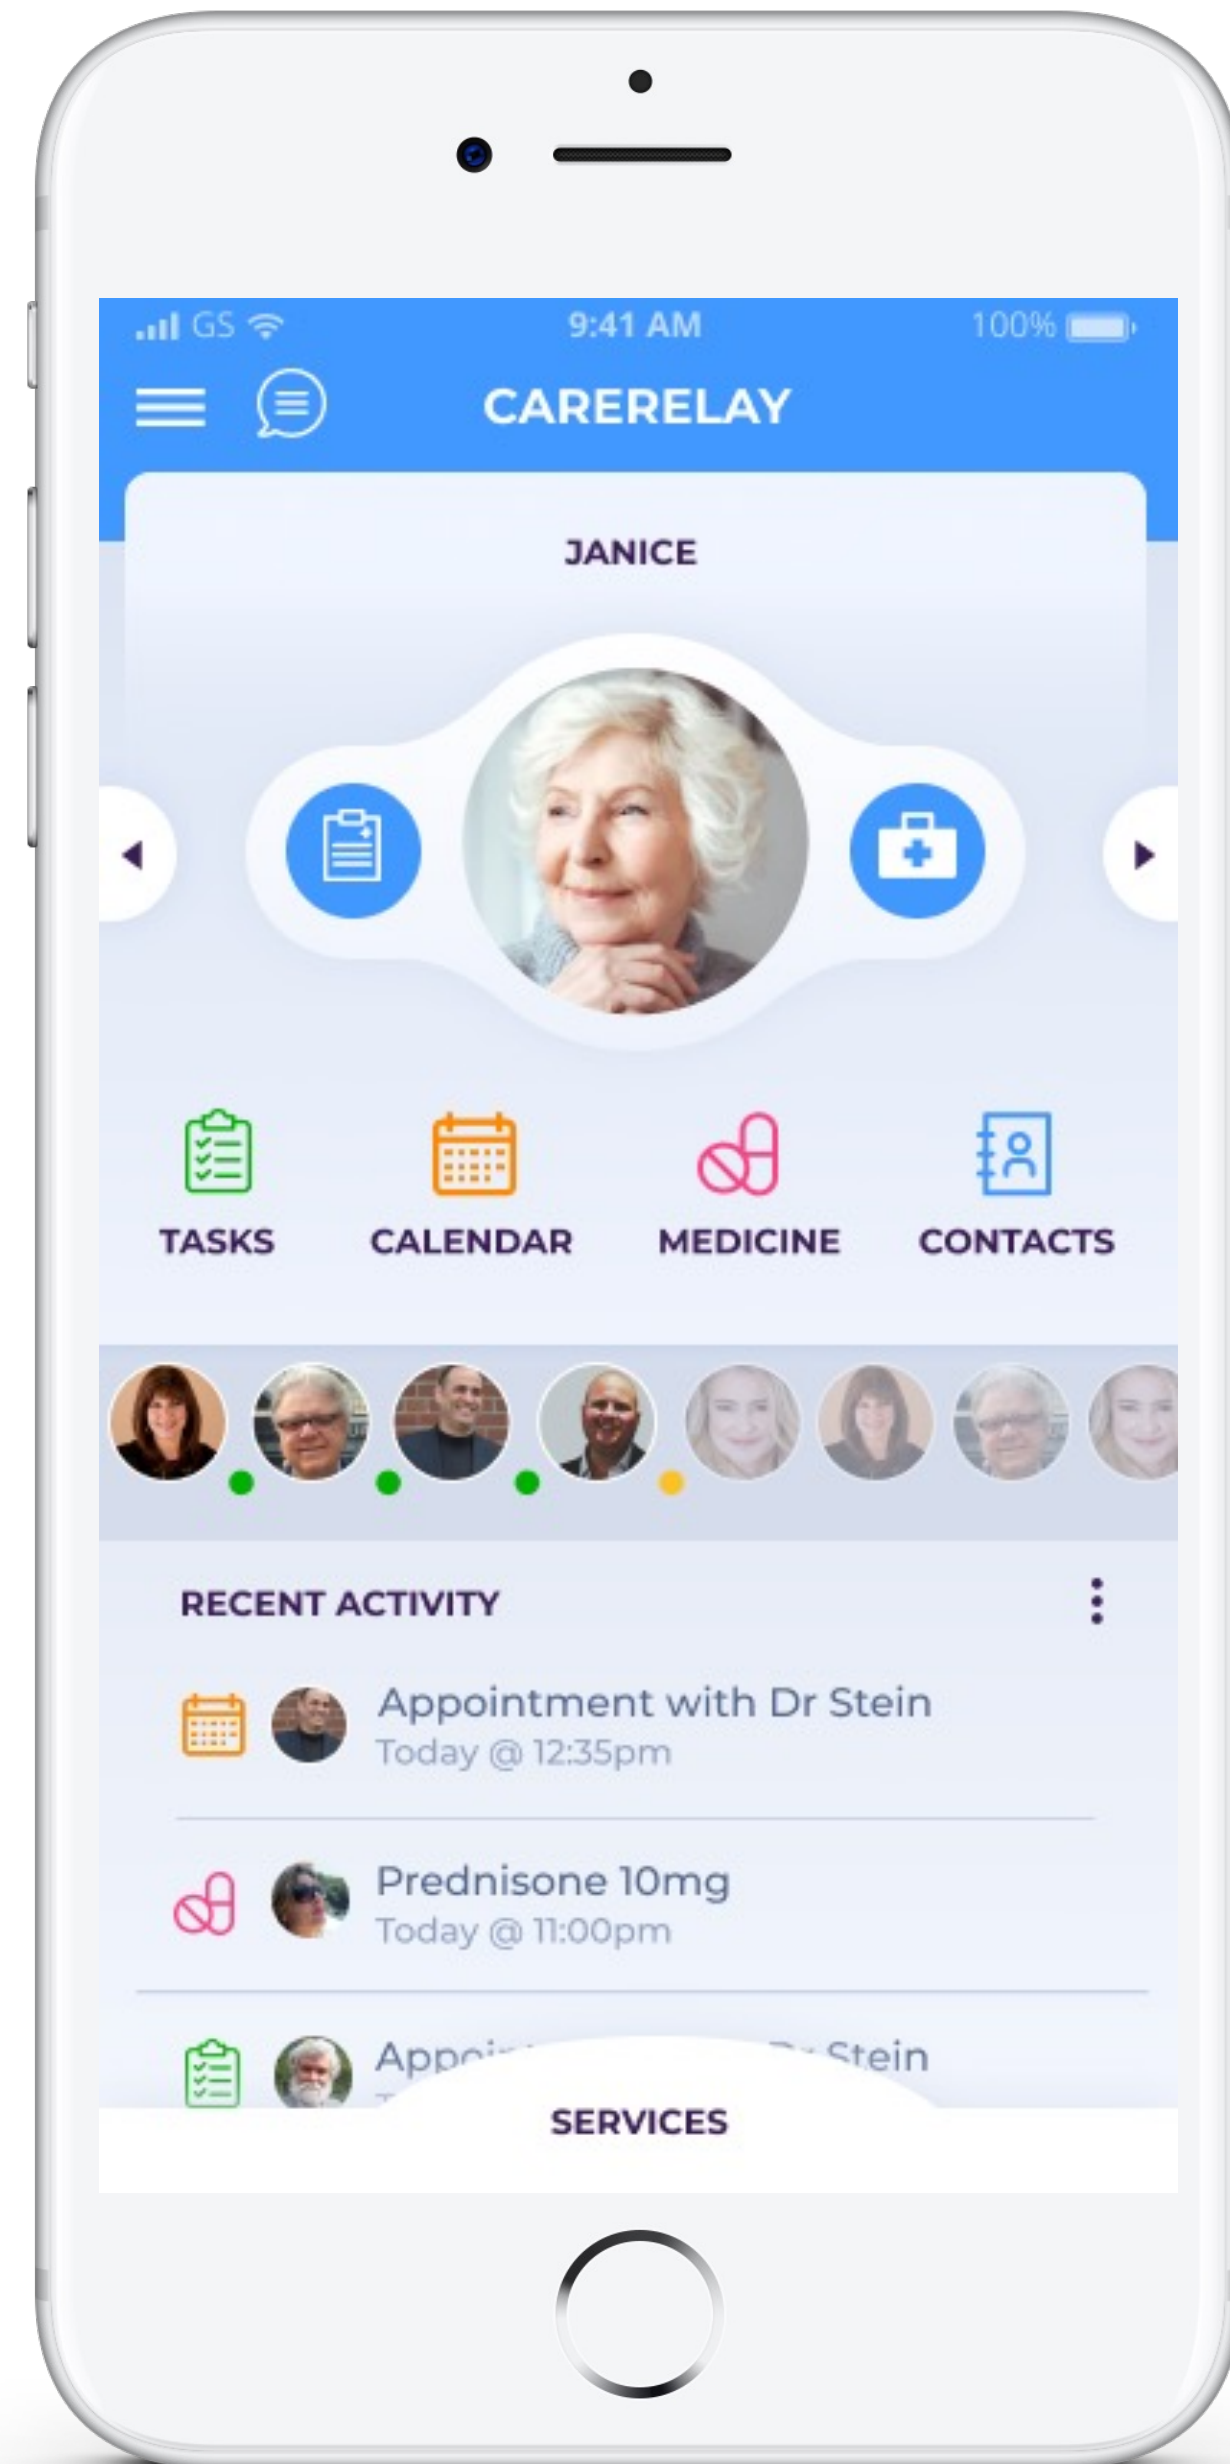

January 2019

CARERELAY INC

Vision, mission & values

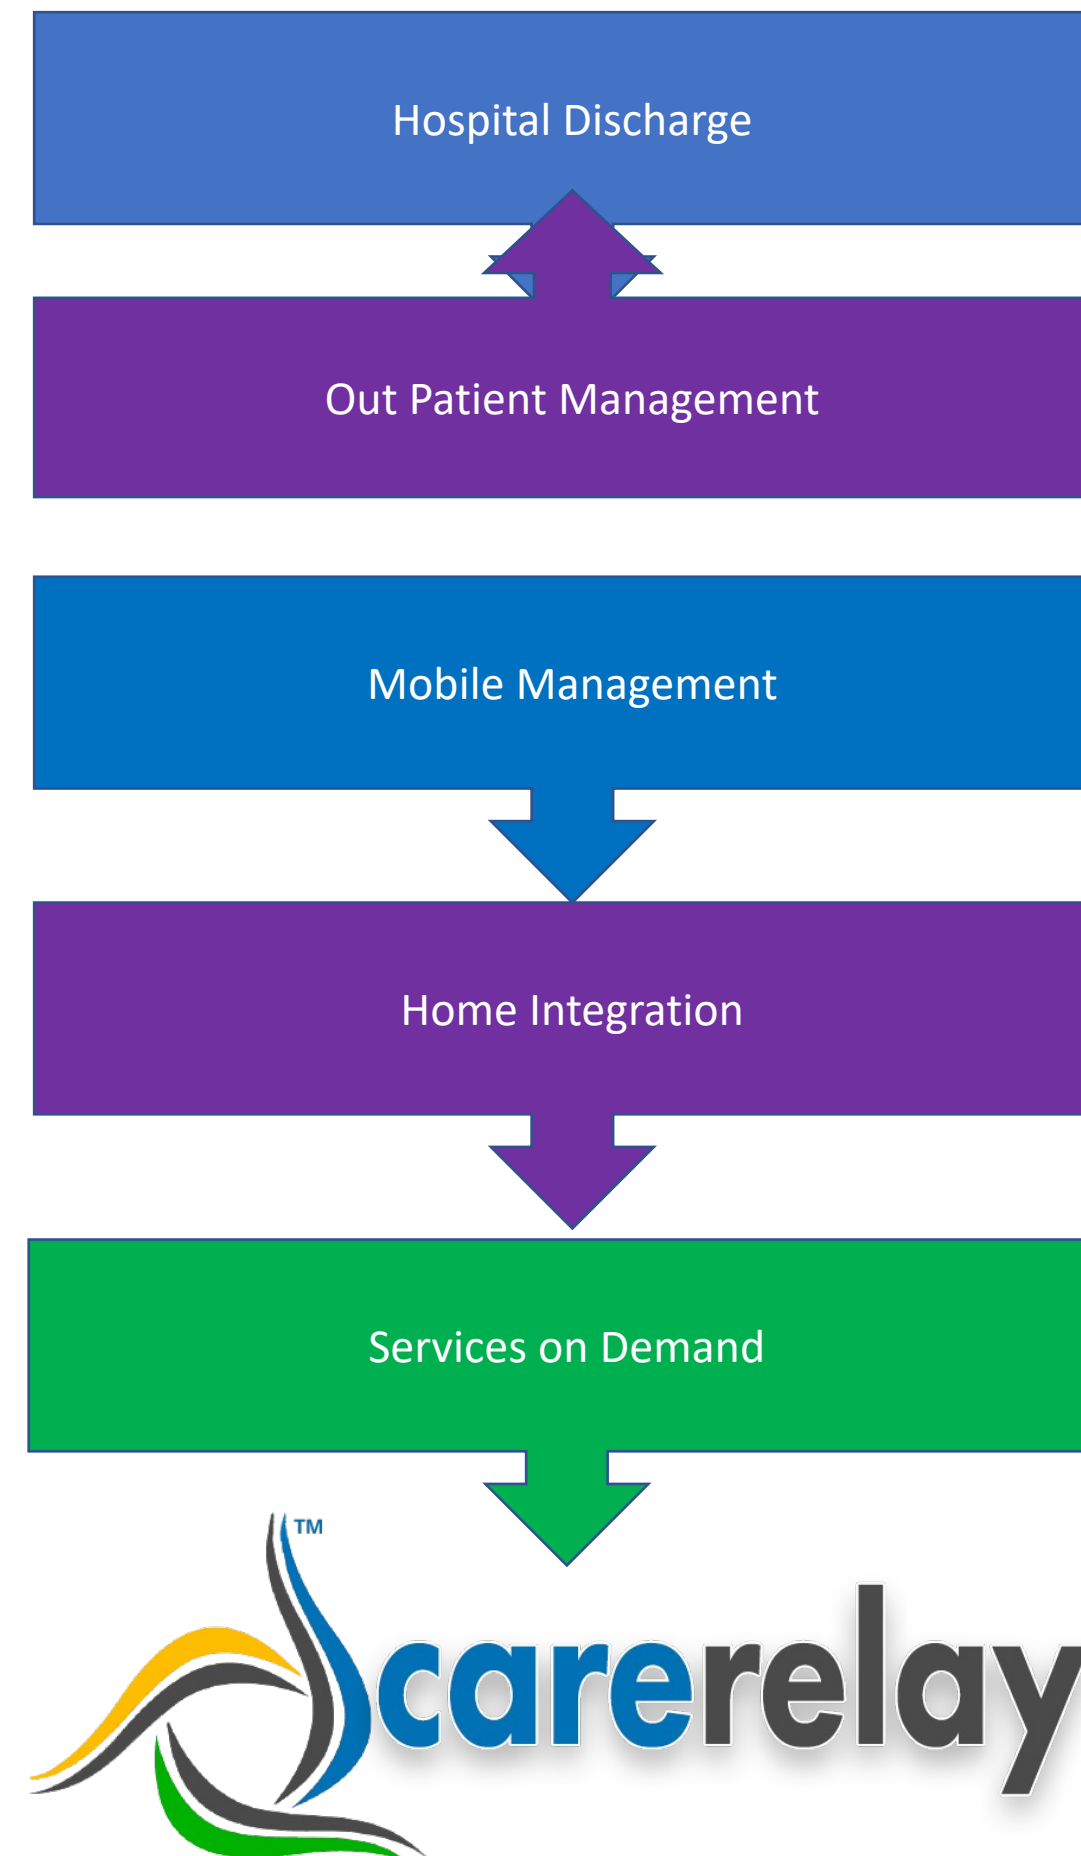

Solving real world problems -

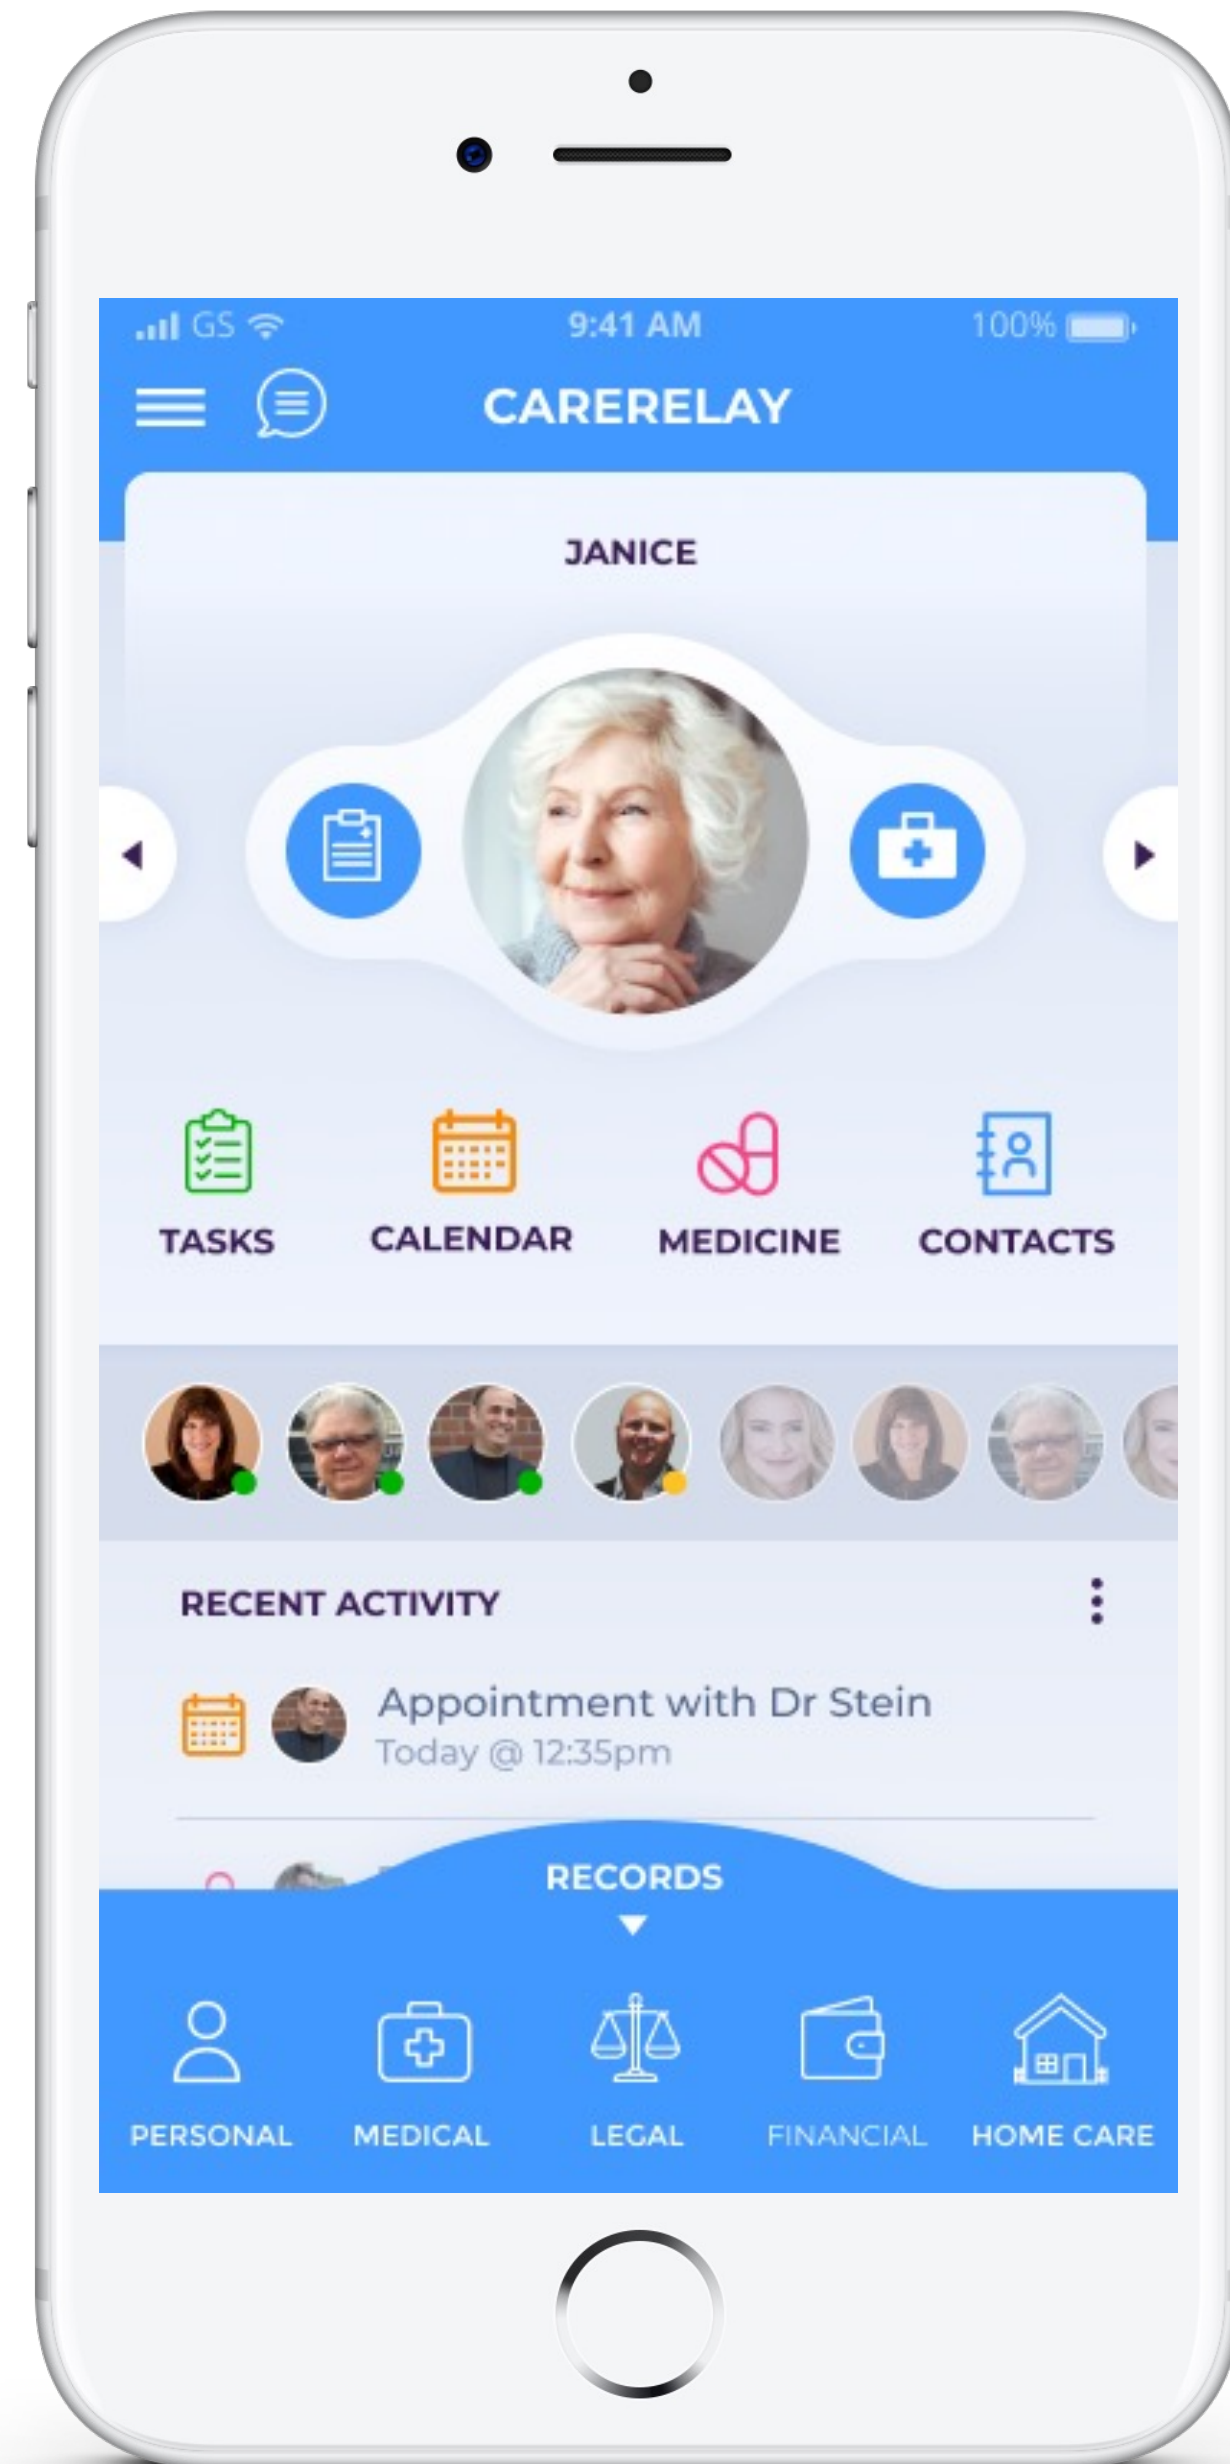

Why CareRelay

Family Caregiving support hub

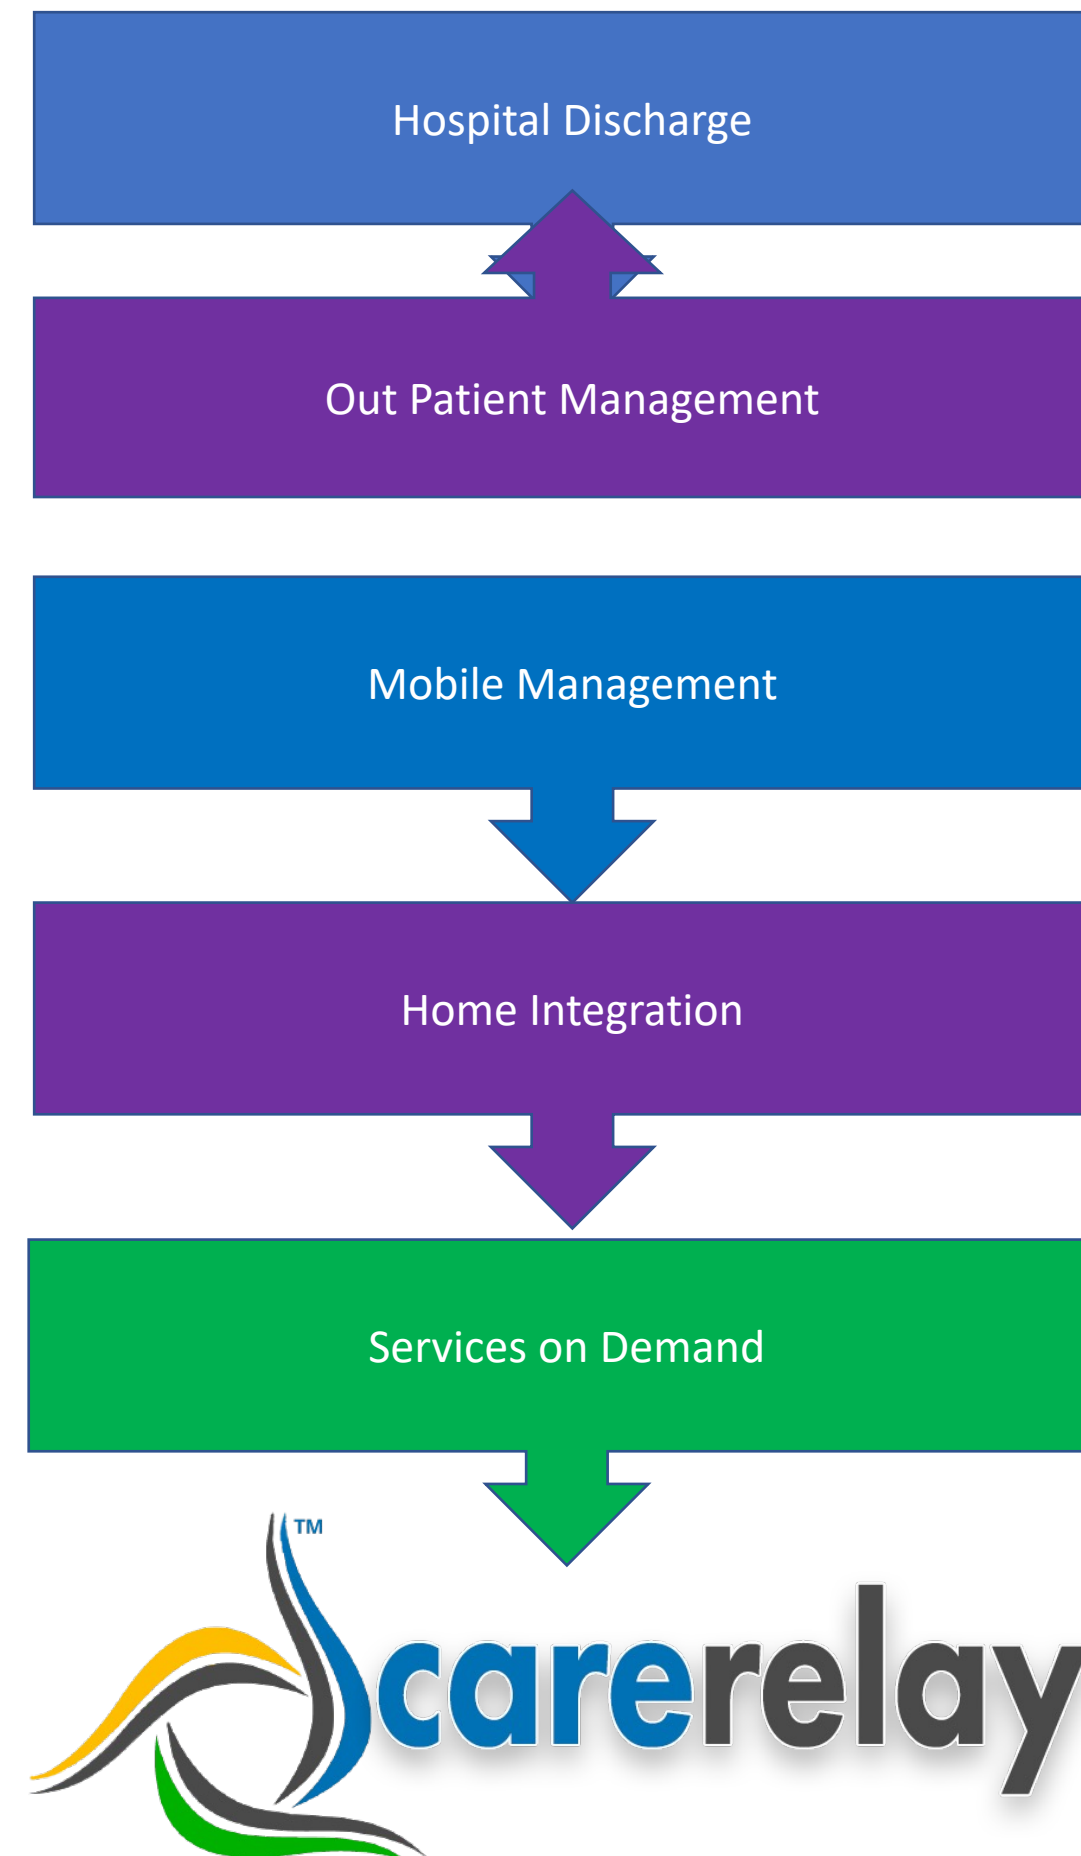

- Many people no longer live in the same city, province or country as their parents.
- People are living longer, the average life expectancy in North America has grown to 80 years.
- People want to stay in their own homes as they age or while healing from an accident or surgery
- We live in a time of instant gratification; people want things immediately and with little to no effort. This application makes that happen with all aspects of a caregivers life.

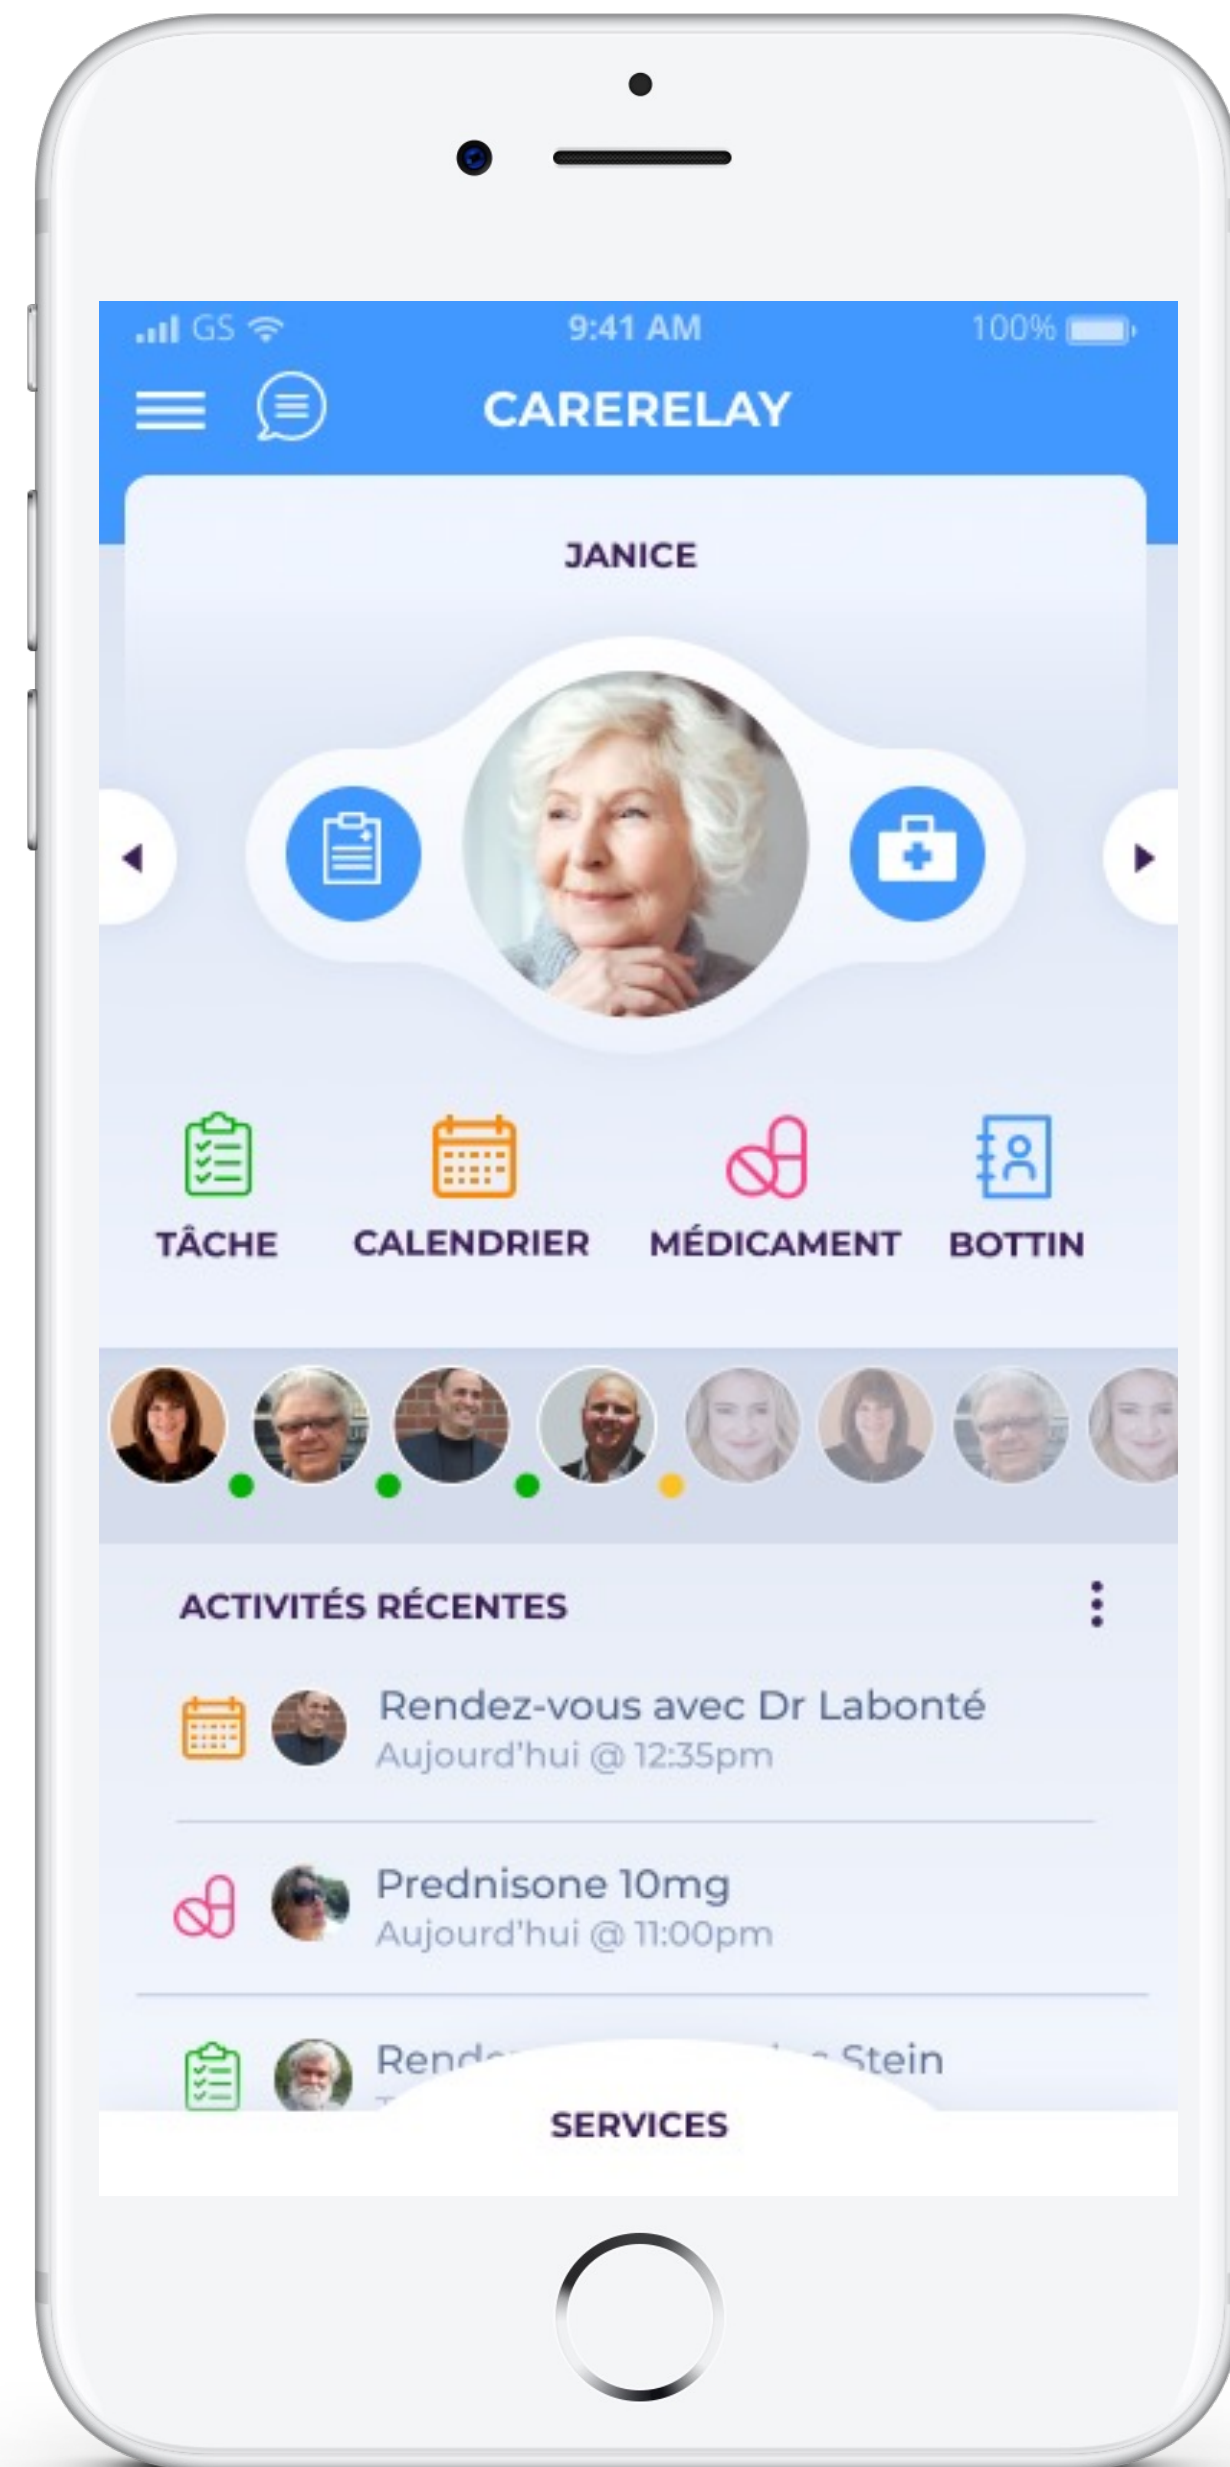

What is CareRelay

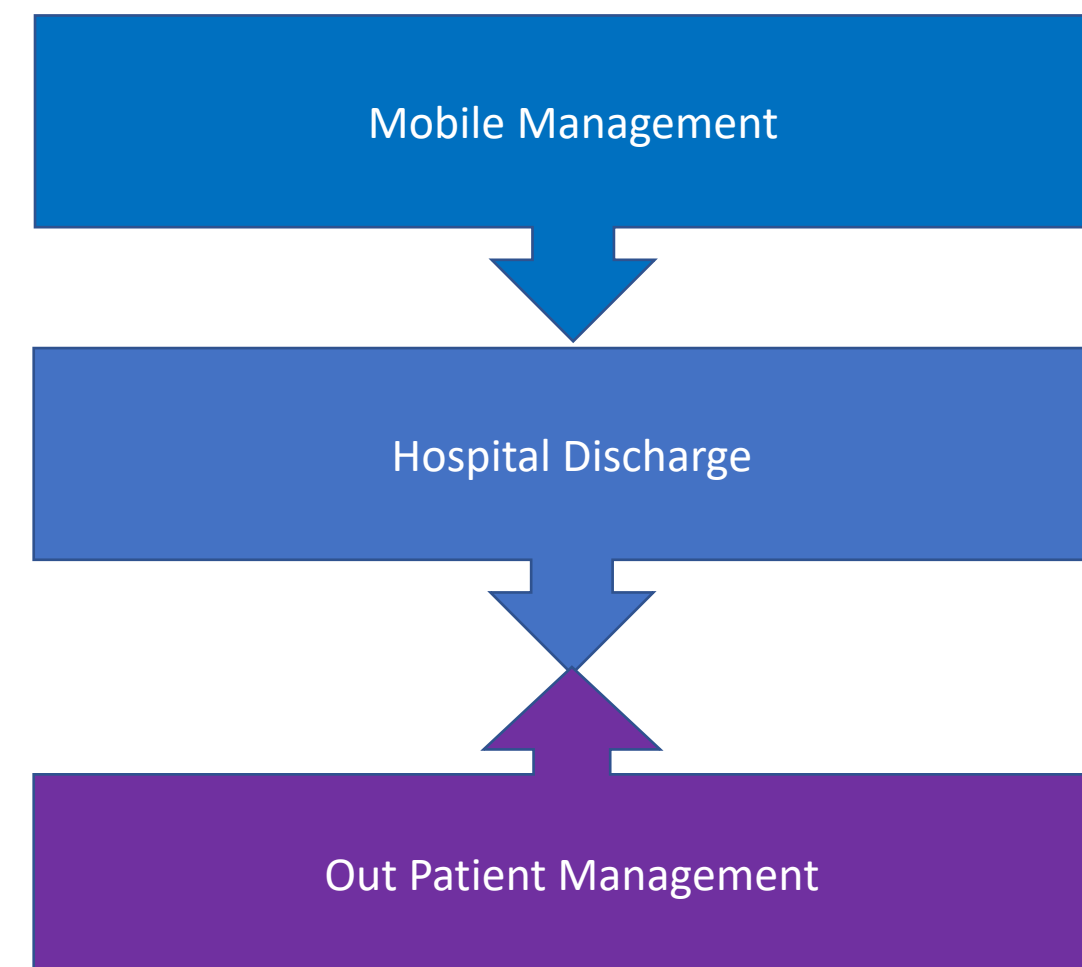

Family Caregiving support hub

- CareRelay is a HIPPA secure application that allows family members to manage care of a loved one from anywhere.
- CareRelay is an intelligent HUB that helps anyone care for themselves and any loved ones by coordinating, scheduling and simplifying every aspect of life.

Who is it for?

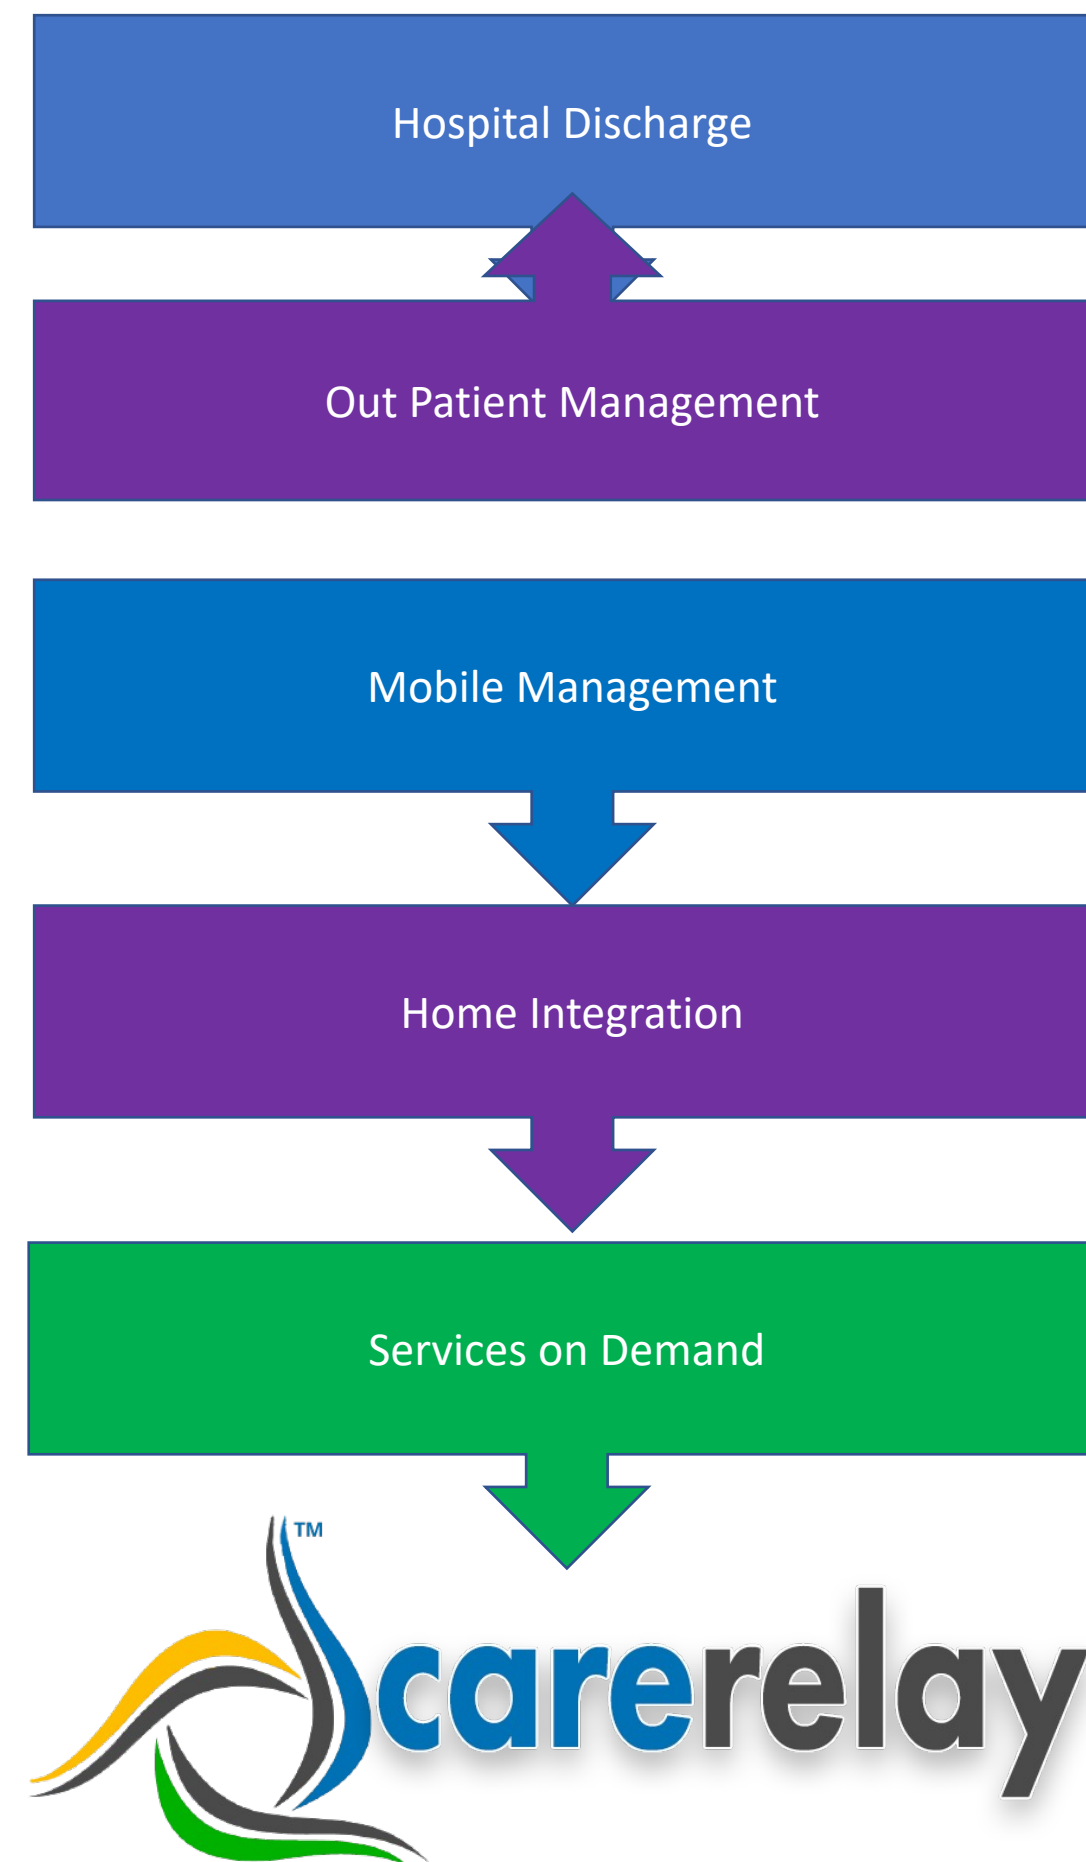

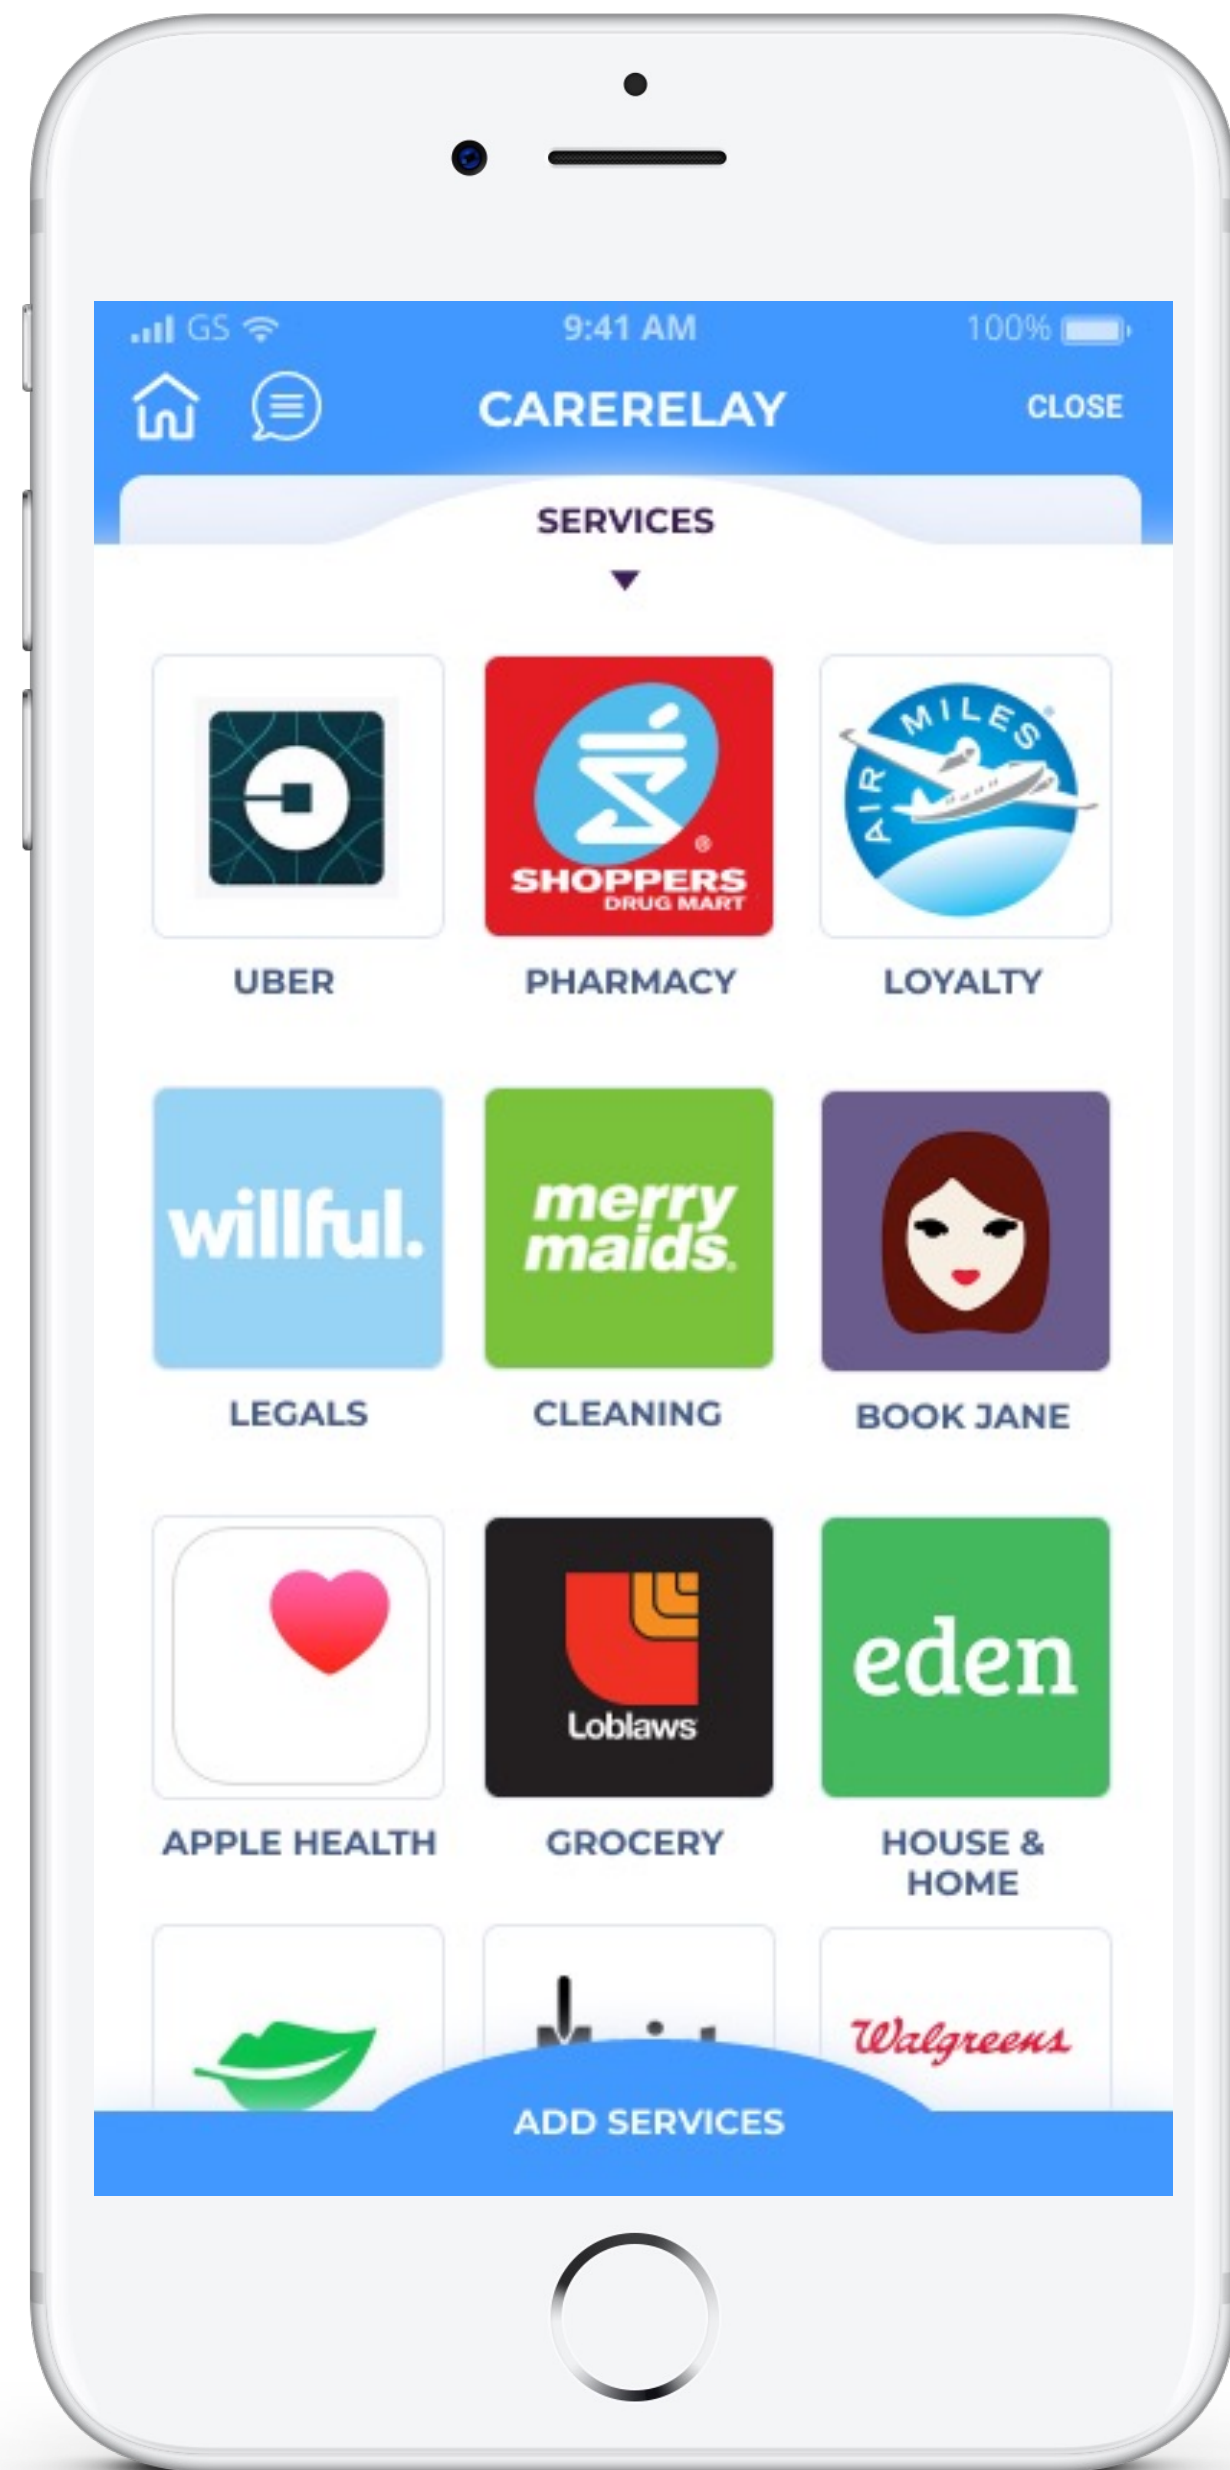

- An ageing parent
- A new parent
- A single parent
- A family member healing from an accident or surgery
- Day patients and out patients
- A family member with mental health challenges
- Or a family member who just wants all of their information and services in one convenient place!

Caregiving on the Go

Book Services on demand to support the care team and patient
